INTRODUCES AQUUM SPA AT LABRIZ, SEYCHELLES

Healing Waters. Nature-rich Botanicals. Indigenous Traditions. These are the three key elements of inspiration behind Per Aquum's new AQUUM brand which is now exclusive to Universal Resorts. AQUUM's mission is to treat each person as an individual. To provide a place of calm and quiet, one of the few places in the world free from distractions. Where the only focus is you. To inspire. To nurture. To enhance wellbeing through intuitive touch in the world's most desired locations – leaving AQUUM forever soaked in your spirit.

AQUUM spa at Labriz certainly delivers the brand's mission on all levels and truly embraces the essence of Seychelles. Verdant jungle, iconic granite boulders, pure white sand and turquoise blue sea set the scene and cool vibe at this groundbreaking spa.

Feel instantly at ease under the nurturing guidance of the team who offer you a local juice from fruits harvested from the island prior to leading you through the chiselled boulder path which curves up from the resort into the mountain. Begin your journey in 'Degrees' – a superior open-air facility which offers an aromatherapy infused steam room, sauna, hydro pool, hot tub, outdoor showers, spa dining sala and a separate indoor relaxation villa perched in the jungle – the perfect way to unwind, detox and relax pre and post treatment.

AQUUM Spa at Labriz has been designed to bring the elements of nature closer to guests and to offer an organic, raw and natural ambience with a treatment menu to match. Clever use has been made of the natural boulders and lush vegetation throughout the spa, allowing guests to truly immerse themselves in nature. Treatment rooms have been assigned local Seychellois names to reflect the indigenous spirit of the spa and the secluded beach to the front of the spa is a combination of white soft sand, turquoise sea, natural coral and granite boulders, which supplies the natural sound of breaking waves to enhance your spa experience.

The spa boasts 5 treatment rooms and 1 superior suite which are nestled into natural jungle vegetation and all are equipped with aromatherapy steam shower experiences. The VIP suite 'enhancement' offers guests that little piece of extra indulgence if they wish to make their spa experience all encompassing with the opportunity to enjoy a bottle of champagne, outdoor bathing, jungle showering and spa dining experience within the spa sanctuary – a range of spa experiences can be designed to fulfill any wish.

Local ingredients and cutting edge Pevonia Botanica spa products have inspired a diverse yet select menu to truly reflect everything that is pure and beautiful about this eco-sensitive environment and to deliver an experience that is quintessentially Seychelles. The 'Essence of Seychelles' signature treatments will keep the experience 'fresh' in the truest sense, by offering guests designer treatments that will be determined by seasonality of produce sourced from local islands – hibiscus, vanilla, cocoa, coconut and

cashew are just a hint of what's to come. Bespoke Soaks are also on offer allowing guests to extend their spa vacation in their personal villa and bathe in a unique blend of local ingredients. Meanwhile, back at the spa, the expert touch experience is a result of AQUUMs commitment to developing Seychellois therapists through an intense training programme. Must-have treatment? - the truly opulent Silhouette Ritual 'Completely Caviar' - a full body, hand and foot, and facial treatment designed to renew, radiate and shimmer - sheer luxury.

Note to Editors:

A Universal Enterprise, **Per Aquum Resorts • Spas • Residences** is a specialist luxury resort, spa and residence management company that offers a different kind of company ethos: one that is passionate, visionary, imaginative and naturally modern. Each property embodies regional tradition and combines luxurious fittings and furnishings in a culturally sensitive way. No two properties are alike. Literally translated, Per Aquum means 'through water', and the vision of the company is to develop and manage properties in desirable locations using naturally modern, ecologically responsible design. Per Aquum currently manages properties in Maldives, Sri Lanka, Dubai, Seychelles, the Caribbean and Morocco and is looking at additional locations in the Indian Ocean region, Indonesia, Thailand, Malaysia and the Middle East.
